The Traffic Controller Development Program is an industry first initiative designed by Evolution Training for the specific purpose of providing participants with the core knowledge and skills relevant not only to the traffic management industry, but also to the wider civil construction and mining sectors.

Program Structure:

The training will be delivered through a combination of off-the-job theoretical training supported by in-the-workplace supervised instruction and project based activities. The theory training will be held at or near your depot and the practical component will take place at your scheduled workplace.

The theory component is made up of 9 units of competency and will be broken down into 4 blocks:

2. Foundation Skills – Planning and organising, Communication, measurements and calculations
3. Technical Skills – Map reading, materials handling, Environmental
4. Workplace Specific Skills – Traffic Control or First Aid or Operate a Light Vehicle

The program will generally run over an 8 week period but may be modified to fit in with the schedule of work.

Course Award:

At the successful completion of this program, you will be awarded RII20113 Certificate II in Resources and Infrastructure Work Preparation.

Student Support:

Students requiring assistance with any aspects of this program are able to contact Evolution Training on 1300 880 488.

Cost:

This program is subsidised under the Queensland Government VET Investment program. As this is a co-contribution model, the following must be paid.

- Concessional: $50
- Non-concessional: $350

This fee will be charged on a pro rata basis at the successful completion of each unit of competency.

Once you complete a Certificate III Level qualification, you will no longer be eligible for a government subsidised training place under the Certificate III Guarantee initiative. Please note this program is at Certificate II Level.

Other Information:

It is a requirement that you complete a student employment survey within three (3) months of completing or discontinuing the program.
Enrolment Information:

To assist the enrolment process, you will be required to provide the following information on the first day of the program.
